

# Think4ward Industry 4.0

**Thursday, May 4, 2017**  
**8:30am – 4:00pm**  
Biesse Charlotte Campus

Biesse invites you to our Think4ward - Industry 4.0 educational seminar where your company will learn how automation and software can create a higher productivity rate and lower your amount of waste! Biesse recognizes the constant need to bend with the manufacturing industry in order to stay ahead of the curve. Our speakers will share their extensive background knowledge of what to expect in future industry innovations.

Attendees will receive a first-hand look at Biesse's Winstore cutting-edge automation system, which provides a wide array of benefits such as reduction of labor costs and improvement of product quality. From production performance increase to labor and waste reduction, Biesse's Winstore is of paramount significance throughout the manufacturing industry and the beginning of the fourth industrial revolution, so RSVP for this event today!

**Lunch will be served!**

Seating is limited to 25 people so register today for this invitation only event!
