

# Cell Manufacturing To Increase Production

Thursday, November 9, 2017

8:30am – 4:00pm

Biesse Charlotte Campus

Is your company looking to increase productivity? Biesse invites you attend our educational seminar on Cell Manufacturing! The market demands a change in manufacturing processes that enables companies to accept the largest possible number of orders. This is coupled with the need to maintain high quality standards and high productivity for products manufactured with a large number of variants and quick, defined delivery times. Join us for our Cell Manufacturing educational seminar to experience Biesse's cutting edge technology first hand. From horizontal drilling machines with panel saws to the Winstore automation system, we will cover production cells designed for small to medium batch processing up to high production. Join us to learn more about how Cell Manufacturing can significantly increase your productivity and allow you to meet any production goals you set!

**Lunch will be served!**

Seating is limited to 25 people so register today for this invitation only event!
