

# Emerging Trends in Edgebanding

Thursday, February 23, 2017

8:30am – 4:00pm

Biesse West Coast Showroom

High gloss laminates, super matte and textured panels have become an increasing trend throughout the industry and Biesse is excited to be hosting our Emerging Trends in Edgebanding educational seminar! This FREE workshop will give you valuable insight into latest industry trends for edgebanding and easy ways to create high-quality products without the high-end price tag. With representatives from REHAU, Jowat and Nordson we will discuss the different applications for EVA, POR and PUR Glues and alternate application systems. Biesse's award winning Airforce System will be presented to demonstrate glueless high gloss banding and high-gloss acrylic laminate panels for you to examine. The revolutionary AirForce System allows companies of all sizes access to Zero glue line previously only achieved by a complex and expensive laser system. Register for this event today to see how our innovative technology can improve the quality of your product and bottom line. Register today to attend this seminar. We think you'll be amazed by the possibilities!

## Lunch will be served!
