Please RSVP to this limited space event.

Join us at RJM Cabinets on Friday, May 12th for our Lunch and Learn event to see featured machinery up and running and talk with industry experts. This informative day will include:

Biesse Rover A FT 1536 NBC - Full gantry 5 x 12 nested base CNC router. Automated nested cell that cnc labels, loads, machines, and unloads. Great solution to reduce time and labor.

Selco WN 7 Series Beam Saw - 12' beam saw that showcases the continuous innovations evident in all Biesse products.

Biesse AFS Hot Air Edgebander - The Biesse AFS AirForce hot air system large frame edgebander for the medium to high production shop. Can change from HPL to PVC to zero glue line edge and from straight to bevel to radius without adding or removing any components. Servo controlled setup features

Viet S3 Sander - 54" planer, 2 head sander, and wire brush. Pneumatic pad, Brembo disc brakes and 4 pole motors...
