

# Don't miss this opportunity to visit TWO Machinery companies in ONE trip!

Biesse America's Charlotte One2One and Cefla North America's Cefla Live will both take place in Charlotte on **April 10th & 11th** and you are invited to visit both!

## **one2one**

**April 10 & 11**  
**9:00am to 5:30pm**

Take advantage of this exclusive opportunity to see the latest cutting edge technology from Biesse and work with our product managers, each with over 20 years experience to see how Biesse technology can increase your production and improve your bottom line. We will also have over 15 Industry Partners to discuss software, tooling, sanding, financing, banding, glue, dust collection, plus much more.

Contact us for a schedule of our **FREE** educational seminars taking place throughout the event.

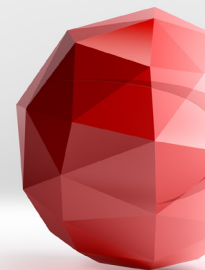

### HIGHLIGHTS:

**AirForce|System >>**

- **Viet** demonstrating the **award winning** "Low Pressure Sanding Solution" featuring the patented **High Performance roller** and **High Performance pad** for Veneer and Lacquer/sealer sanding
- Demonstrations and seminars on the **NEW Biesse AirForce Hot Air Edgebanding System**
- Demonstrations and seminars on the **NEW Biesse bSolid 3D CAD/CAM software** that takes you from concept to production in just a few clicks
- Over 13 different machines under power and ready for demo
- 12 Industry partners with display tables set up

## **CEFLA LIVE** **NORTH AMERICA**

**April 10 & 11**  
**8:30am to 5:00pm**

During the Cefla Live we will feature a variety of machines and finishing processes.

Lab Demos and demonstrations will be scheduled during the two days on the following equipment:

- **Prima** – Entry-level automatic spray machine. Demonstrations on wood and glass will be featured.
- **Easy** – Reciprocating spray machine has been newly engineered and updated for even greater performance and ease of use. Perfect for the medium-sized manufacturer.
- **Pixart** – High-resolution digital printing system for any substrate. A special glass printing demonstration will also take place.
- **DVS** – Made in the USA cost-effective finishing coating equipment for mouldings.
- **Duespohl** – High-speed profile wrapping.
- **UV-R** – High-speed drying technology is exceptionally efficient, managing energy costs and minimizing floorspace requirements.
- **Roll Coating Technology** – our range of roll-coating equipment, application, drying and curing.
- **Viet** demonstrating the **award winning** "Low Pressure Sanding Solution" featuring the patented High Performance roller and High Performance pad for Veneer and Lacquer/sealer sanding
