

# BIESSE Invitation

**IWF**  
**ATLANTA**  
August 20-23, 2014

Join us at  
**Booths 6953,  
6973 & 6781**

## bThere

Biesse will present some of the most innovative technology available in the industry from affordable, high quality entry-level machines up to the most technologically advanced solutions available for panel processing, solid wood manufacturing, plastic manufacturing as well as the production of non-ferrous metals and composite materials. We will be showcasing many new products that are focused on flexibility, productivity, and lowering operating costs. Demonstrating the **Winstore System, CNC Routers, the NEW AirForce Hot Air System, Edgebanders, Drilling Machines, Panel Saw with patented Twin Pusher technology, Wide Belt Sanders, 5 Axis Machines** plus much more. Our product specialists will be on hand to explain the latest trends and technology designed to reduce set up time and increase productivity in a low batch environment.

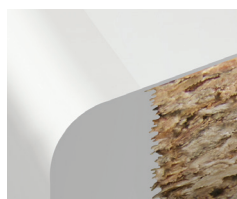

## bSolid

Dedicated area for demonstrating the innovative bSolid software that takes you from concept to design in just a few clicks!!

## AirForce | System >>

AirForce hot air edgebanding technology delivers the quality of a laser edgebander for a fraction of the price

**Semi-Finalist 2014 Challengers Award**
