

Lunch & Learn

Bladt's Custom Woodworking

Friday, May 5, 2017
10:00 am – 2:00 pm

Join Biesse and Cabinet Vision at Bladt's Custom Woodworking on Friday, May 5th for our Lunch and Learn event.

See first hand how Bladt's has utilized software and equipment to improve their workflow, production and increase their bottom line. From reducing costly outsourcing to adding to a vast library of output specifications to fit hardware, all coordinated with the ordering process, you will see the benefits of a streamlined workflow.

Date: Friday, May 5, 2017

Time: 10:00 am – 2:00 pm

Location:

Bladt's Custom Woodworking

880 SE 9th ST Unit A
Bend Or. 97702

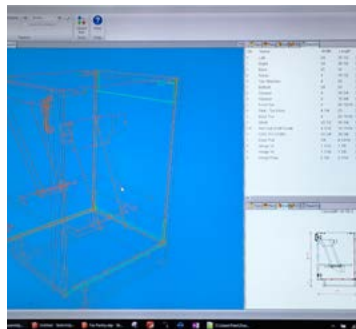

"The shop guys complain about it taking more time to unpack hardware than to install it," comments Josh Bladt. "We have also built in variables to where the cabinetry size is optimized for the hardware and can't be altered during design of the cabinetry." One of many well thought out processes that Bladt's has incorporated into their operations.

Join us for an informative day featuring "screen-to-machine," zero glue-line technology and much more, along with the opportunity to work with industry experts to answer your technical questions.
